

Rigging for Entertainment: Regulations and Practice

The Lifting Operations and Lifting Equipment Regulations 1998 (LOLER) are discussed at length and chapter 2 provides a model Code of Practice for Rigging in Venues. Rigging Theory covers everything from Factors of Safety and Terminations of Ropes and Wire Ropes to Breasts and Brails and Hotel and Ballroom Rigging. Equipment is fully described, as is the rigging process itself. The final chapter covers Working at Height, from the regulations involved and use of access machines through to example training courses. For the future, the author makes note of Soft Landing Systems. Incorporated throughout the book is continued reference to as much guidance material as there is available from the likes of the HSE, British Standards and the ABTTs Code of Practice for Flying.
