

The Smart Growth Manual

Everyone is calling for smart growth...but what exactly is it? In *The Smart Growth Manual*, two leading city planners provide a thorough answer. From the expanse of the metropolis to the detail of the window box, they address the pressing challenges of urban development with easy-to-follow advice and broad array of best practices. With their landmark book *Suburban Nation*, Andres Duany and Jeff Speck set forth more clearly than anyone has done in our time the elements of good town planning (*The New Yorker*). With this long-awaited companion volume, the authors have organized the latest contributions of new urbanism, green design, and healthy communities into a comprehensive handbook, fully illustrated with the built work of the nations leading practitioners. *The Smart Growth Manual* is an indispensable guide to city planning. This kind of progressive development is the only way to fully restore our economic strength and create new jobs, new industries, and a renewed ability to compete in the first rank of world economies. -- Gavin Newsom, Mayor of San Francisco

Authors Andres Duany, Jeff Speck, and Mike Lydon have created *The Smart Growth Manual*, a resource which not only explains the overarching ideals of smart growth, but a manual that takes the time to show smart growth principles at each geographic scale (region, neighborhood, street, building). I highly recommend [it] as a part of any community participants or urban planners desktop references. -- LocalPlan.org

A lot of books deal with smart growth in one way or another. *The Smart Growth Manual* is, to the best of my knowledge, the only one that *The Smart Growth Manual* takes some first steps at defining some parameters, more in the form of suggestions, to shaping the design process - Buy *The Smart Growth Manual* book online at best prices in India on Amazon.in.
